

To all of my clay shooting customers and friends:

I just learned today, Monday, August 14, 2023, Roger Andersen of Sheridan Montana, a great and friendly customer, who became a good friend over the years, passed away with Guillain-Barre Syndrome in January of 2023.

Roger was a retired hard-working Idahoan who sought Sheridan Montana as his place of retirement. He was an avid trapshooter such that I occasionally would send Perazzi shooting items and other equipment to him to use as trophies.

He was a president of the small trap club there and was such a delightful, supportive gentleman, that one could only smile when talking with him. He was friendly and easy to talk to.

Roger left no family other than a sister and sister-in-law.

I often momentarily think of him because he was such a delightful gentleman. I even have a printed label affixed to the cabinet door just above this computer with his number to call.

I am saddened that I did not give him a call prior to his death. Life is short and all of us need to simply step back and call a friend and "see" how they are getting along.

Mondays are always a busy Perazzi day for me, but I needed to stop, step back and pay tribute to this gentleman. He was a giver and keeper.

I am deeply saddened that trapshooting has lost another wonderful sports enthusiast.

Rest In Peace, Roger
